

### Call for Membership of International Associations of Intelligent Medicine (IAIM)

The International Associations of Intelligent Medicine (IAIM), formally registered and established in the United States, is a non-profit, tax-exempt academic organization. Guided by the core mission of "internationalization, contemporary relevance, and integration of medicine and engineering", IAIM focuses on three key work directions—academic exchange, education and training, and scientific research innovation—and is committed to building a global cross-sector collaboration platform in the field of intelligent medicine. The following outlines the membership hierarchy, benefits, and fee standards:

#### I. Core Work Directions of the Association

##### 1. Academic Exchange: Building a Global Knowledge Network

Host the Annual International Intelligent Medicine Academic Conference (IAIM Conference), inviting top global experts to deliver keynote speeches and participate in roundtable forums;

Launch the "Frontier Forums on Intelligent Medicine" series of online seminars, focusing on hot topics in sub-fields such as AI diagnosis and medical robots on a monthly basis;

Operate interdisciplinary academic communities to promote regular communication and cooperation among medical experts, engineers, and industry representatives.

##### 2. Education and Training: Empowering Industry Talent Development

Develop "Professional Certification Courses in Intelligent Medicine", covering modules such as basic theories, technical applications, and ethical norms; Establish the "Young Scholars Support Program" to provide research funds and mentor guidance for current students and early-career researchers;

Organize "Medicine-Engineering Integration Workshops" to cultivate cross-sector problem-solving capabilities through practical case studies.

##### 3. Scientific Research Innovation: Driving the Transformation of Technological Achievements

Initiate "International Joint Research Projects" to support transnational teams in tackling key technologies in intelligent medicine;

Operate the "Research Achievement Transformation Platform" to connect medical institutions with technology enterprises, accelerating the implementation of technologies such as AI diagnosis systems and wearable devices;

Release the Intelligent Medicine Technology Trend Report to provide forward-looking research data support for industry development.

#### II. Membership Hierarchy and Benefit Differentiation

##### 1. Regular Membership (Member)

Eligibility Criteria

## International Associations of Intelligent Medicine

---

Engaged in work related to intelligent medicine, with basic professional knowledge or practical experience (e.g., participating in research projects, publishing journal papers);

Able to participate in the association's annual academic conferences and basic exchange activities;

Student members must provide proof of enrollment and are eligible for a student-exclusive rate.

### Annual Fee Standards

- Regular Members: USD 100/year; USD 300 for a 3-year term Payment Link: <https://buy.stripe.com/6oUbJ0fu747I1Db5bRaAw01>
- Student Members: USD 10/year; USD 30 for a 3-year term (Student ID verification is required; payment can be made after verification is approved) Payment Link: <https://buy.stripe.com/3cI28qdlZ33E2Hf5bRaAw04>

### Core Benefits

Access to the association's basic academic conferences and online resource sharing;

Receive annual industry dynamic briefings and basic research materials; Priority registration for the association's training workshops.

### (2) Professional Committee Membership (Committee Member)

IAIM has established various professional committees. Under the leadership of the association, each professional committee is responsible for promoting academic, educational, research, and international exchange activities in its respective field.

Professional committee members enjoy the right to vote, right to stand for election, and right to vote on resolutions within their affiliated professional committee; they may participate in all activities organized by the committee and have priority access to services, information, and materials provided by the committee.

Regular IAIM members may apply to join relevant professional committees to become committee members.

### Eligibility Criteria

Possess more than 3 years of experience in the field of intelligent medicine, with the ability to independently undertake research projects or industry solutions;

Have published high-level papers in the field, or hold achievements related to intelligent medicine (e.g., patents, product implementation cases);

Obtain approval from the professional committee for which the application is submitted.

### III. Organizational Nature and Fee Explanation

IAIM is a tax-exempt non-profit organization recognized under Section 501(c)(3) of the U.S. Federal Tax Code. Membership fees are mainly used for:

Supporting the three core work directions (i.e., academic exchange, education and training, scientific research innovation), such as conference organization, course development, and project incubation;

## International Associations of Intelligent Medicine

---

Maintaining the global collaboration network (including the operation of overseas branches and transnational project connection);

Conducting public science popularization activities (e.g., public education, technical support for developing countries).

An official receipt will be provided after payment. U.S.-based members may use this receipt to apply for tax deductions.

Regular members and professional committee members will receive corresponding certificates.

### IV. Application Method

Please send your application letter (stating your intention, whether you wish to join the professional committee in the corresponding field, your willingness to participate in the association's activities, and your commitment to promoting the association's development, etc.) and curriculum vitae (CV) to the following email addresses: [editorialboard@iaim-amr.org](mailto:editorialboard@iaim-amr.org)

Please mark the email subject as "IAIM + Membership Application + Your Name".
